RECEIVERS FOR IRON CO. NAMED BY COURT

Tennessee Valley Iron and Railroad Company Embarrassed for Funds.

Nashville, Sept. 26.—John H. DeWitt, of Nashville, and W. H. Matthews, of Memphis, have been appointed temporary receivers of the Tennessee Valley Iron and Railroad company by Judge Edward T. Sanford, of the United States district court, sitting at Knoxville, on the ground of the temporary embarrassment of this company.

company.

The company's property is located in Wayne county. Tenn., upon which are located the government's wood alcohol plant, and charcoal and iron furnaces, the latter being operated by the company at Collinswood.

plant, and charcoal and iron furnaces, the latter being operated by the company at Collinswood.

The bill was filed about noon Tuesday, on behalf of the Muskegon Boiler works and other creditors, by Attorneys Lemuel R. Campbell and Joseph Higgins, and allogea that the company is carrying out a large and important contract in the construction and operation of a wood alcohol chemical plant for the United States government. The government's interests are being looked after by Lee Douglas. United States district attorney, of Nashville, and W. T. Kennerly, district attorney for East Tennessee, at Knoxville. The Nashville creditors are represented by W. T. Norvell, Jr., of this city. Bond for the receivers was fixed at \$50,000 each.

The bill alleges that the property of the company covers \$0.000 acres of ore and timber lands in Wayne county. Tenn., upon which are erected a charcoal iron furnace and the government's wood alcohol chemical plant, together with hotels, houses and town sites, occupying these plants. The plants are said to be nearing completion and the alleged embarrasment of the company is alleged to be due to the expenditures made thereon, amounting to approximately \$2.000,000. The product of the plant as planned is to be acctate of lime and crude wood alcohol, which is used in the manufacture of the varnish so largely used in coating the wings of aeropatages. The plant is one of the laugest and most modern of its kind in the country.

The style of the suit is the Muskegon.

largest and most modern of its kind in the country.

The style of the suit is the Muskegon Boiler works, a corporate corporation under the laws of the state of Michigan; the Lake Shore Engine Works of Michigan; the Nordburg Manufacturing Company of Wisconsin, and the William S. Gray & Co., of New York, against the Tennessee Valley Iron and Railroad Company of Tennessee; Norvell & Wallace, a firm composed of R. O. Norvell and W. E. Norvell and W. J. Wallace; Keith, Simmons Co., composed of Walter Keith and W. J. Simmons, both citizens of Tennessee, and the Fidelity and Columbia Trust Company of Kentucky, defendants.

The petition, after declaring that the following are bona fide creditors of the company, sets forth their claims as follows:

Muskagen Boiler works, \$203,000; Lake

company, sets forth their claims as fol10ws;
Muskegon Boiler works, \$203,000; Lake
Shore Engine works, \$3,000; also conditional contracts amounting to \$77,520; the
Nordburg Manufacturing company, \$13,575,75; William S. Gray & Co., two notes,
one for \$25,000 and another for \$25,000.

The defendant company, the petition alleges further, is indebteded to various
other persons and corporations.

Mr. DeWitt, the Nashville man named
as co-receiver with Mr. Matthews, is well
known in Nashville, and his executive
ability has been demonstrated on more
than one occasion. Mr. Matthews, the
other receiver, is president of the Forest
Products company of Memphis, and has
had many years' experience in the operation of such plants.

GRAIN.

Chicago, Sept. 26.—Buiges are expected in corn, but sentiment is mixed as to a fair upturn. Cash corn was steady to 5c up, due to the smaller receipts. The retarded receipts of course count as a future factor, No. 3 mixed corn is quoted \$1.52, and No. 6 mixed \$1.27. Chicago contract stocks of corn are 155,000 vs. 73,000 last week.

STOCKS.

New York, Sept. 26.—In view of the fact that out of deference to the wishes of the committee loans of brokers generally are not increasing, there is significance in the ability of the market to maintain the degree of strength of the last few days. Interior markets, loyal to the wishes of the stock exchange, with the execution of orders have wired "ship the stock."

Gradual shifting of the responsibility for financing to the point at which the orders originate is as it should be. The interior federal reserve banks are beginning to shoulder their own burdens. The supply of stocks is unquestionably determined to shoulder their own burdens. The supply of stocks is unquestionably determined to shoulder their own burdens. The supply of stocks is unquestionably described by the stock of the former price was 50062c for creamery. It is stated that the government has commandeered 60 per cent. of the country output, which explains the material increase.

CORN MARKET TAKES

DOWNWARD SWING Chicago, Sept. 26.—Announcement that the food administration had adopted a definite schedule to which grain dealers is profits would be restricted gave a downward swing today to the corn market. Bearish sentiment received impetus also from word that the issue of permits for grain shipments to Chicago had been resumed. The number of permits obtained so far, however, was said to be small. Opening prices, which ranged from %c off to ½c up, with October \$1.48½@1.45 and November \$1.46½@1.46%, were followed by a material setback all around. Oats displayed relative firmness. After opening %@%c higher, with October 74½ @71½c, the market reacted to slightly below yesterday's finish.

Talk of the establishment of a minimum price on hogs steadled provisions.

The close was heavy, 1½@2%c net lower, with October \$1.47½@1.47½ and November \$1.44½.

LIVERPOOL SHOWED

A SHARP ADVANCE

New York, Sept. 26.—The opening of the cotton market this morning showed the stimulating influence of yesterday's late statements concerning the policy of the committee on distribution and the probability that price-fixing would be unnecessary. Liverpool showed a sharp advance and the market here started firm at an advance of \$25697 points, with October selling at 33.00c and January at 32.35c on the call.

Liverpool was a good buyer and there was an active demand, but some of the leading spot firms had selling orders around the ring and there were reactions of 25 to 35 points shortly after the call. The midmorning setback carried October off to 32.50c and January at 31.95c, or 406550 points from the early high level. The undertone was steady, however, on the unfavorable view of the western belt forecast for lower temperatures and eastern belt rains, with October ruling sround 32.50c and January 32.06c, or about 40660 points from the early high level. Lieutenant-Commander Commended for Bravery

Denver, Colo.—Other nations probably will owe the United States nearly \$3,000,000,000 at the end of the war if it should come about a year hence. John E. Rovensky, of New York, told the bankers assembled here in the national convention of the American Institute of Bankers. Mr. Rovensky is vice-president of the National Bank of Commerce of New York.

The world now owes the United States about \$5,765,000,000. Mr. Rovensky said, and he estimated that this would be increased within a year by about \$3,000,000,000.

By the time the war is over," said Mr. Rovensky, "America will be one of the leading creditor nations of the world. a financial center from which a large part of the world's trade will to a large extent be cast up and be settled.

"World banking on a scale heretofore undreamed of will be the order of the day. The star of financial and economic supremacy that has been traveling westward since the dawn of civilization and that now rests over London, will again move onward in its course and creas the Atlantic. In contemplating this pictupre there spreads before our eyes a vista of a world of boundless opportunities which awaits young American bankers of the present generation."

Mr. Rovensky estimated that after the war the United States would receive from foreign nations annually about \$450,000,000 in interest as it did before the war. Against this there would be charged items of payment to foreign countries amounting to \$25,000,000. To this should be added an annual net trade balance in favor of the United States of a bout \$450,000,000. This made a total of credits annually piling up in favor of the United States of a bout \$450,000,000. This made a total of credits annually piling up in favor of the United States of \$655.000,000. London, Sept. 26.—Lieutenant-Commander Richard P. McCullough, U. S. N., commanding the converted yacht Ceydonia, has been commended by the British admiralty for destroying the submarine which attacked a convoy and sank a vessel on the route between Algiers and the Balearis islands. The naval announcement emphasized what havoc allied vessels must be working among the enemy submarines, although the cases are few where definite knowledge comes to hand of the destruction of underwater boats. In this case Lleutenant-Commander McCullough dropped three depth oee,ooo.

Mr. Rovensky intimated that the United States would find it profitable after the war to leave its \$3,000,000,000 investment abroad and to reinyest abroad the income from it by purchase of securities of foreign railways, steamship companies, manufacturing, mining and other enterprises.

charges where he believed the submarine had submerged, although the craft had not been seen. There is no evidence of a positive nature that the submersible was destroyed or even damaged, but a full investigation by the British admiralty, it is stated, leads to the almost conclusive belief that the U-boat met its doom as the posult of one of the charges.

EFFORTS TO BUILD UP MORALE OF GERMANS

Growing Unrest Noted Among People of the Central Empire.

(By Bert Ford.)
With the British Army in France, Sam., Sept. 26.—(I. N. S.)—"Energetic steps" are being taken by the German military authorities to put down unrest among the German soldiers and neeple. people.

This is revealed in an army order issued by Gen. Ludendorff, which has just been captured by the British. The

order says:
"There has been an increase recently in the number of complaints received from home. Men on leave from the front create an unfavorable impression by making statements actually bordering on high treason and incitement to dischaders.

actually bordering on high treason and incitement to disobedience.

"Instances such as these drag the honor and respect of the individual as well as the whole army down into the mud and have a disastrous effect upon the morale of the people at home.

"No dobut such expressions often emanate from a certain irritation which changes to actual anger at the sight of superificial war weariness and despondency, which are unfortunately so widely prevalent at home.
"In order to counter this, it is necessary that there is careful teaching

"In order to counter this, it is nec-essary that there is careful teaching to show the consequences.

"While traveling through the country, a soldier sees only the surface. That honest toil and severe struggle going on at home are not apparent to

him.
"It seems as though some people are consciously adopting a line of conduct hostile to the state.

The order closes by citing such who have been deprived of leave and others who have been sent to military prisons for punishment.

BOLSHEVIKS LEAVE LONDON. London, Sept. 25.—Maxim Litvinoff the bolshevik ambassador at London, and about fifty of his compatriots left today for Russia, according to an agreement between the British government and the soviet authorities that Litvinoff's departure would be followed by that of the British representatives and subjects from Russia.

Litvinoff will remain aboard the steamer at a neutral point until assurances are received that the British have crossed the Russian border. MARTIAL LAW DECLARED

London. Sept. 26.—(11:55 a.m.)—Six
members of the party of American
editors who are visiting English war
plants and the battle fronts as guests
of the British government flew from
England to France today. They were:
Dr. Wheeler, of Current Opinion; Fred
W. Kellogs, of the San Francisco Call;
S. J. Duncan Clarke, of the Chicago
Post; Ellery Sedgwick, of the Atlantic
Monthly: Dr. Van Hise, president of
Wisconsin university, and Charles
Towne, of McClure's Magazine.
The remainder of the party made the
trip by boat and all will make an inspection of the western front, after a
short stay in Paris.

All of the members of the party are
well and have been greatly impressed
by the war effort of England.

ALARMED BY PACIFISTS

Cerman Government Uneasy Over Demonstrations.

Paris, Sept. 26.—'Fresh dispositions made by Gen. Franchet d'Esperey, who has passed through Prilep, justified the belief that there will be an energetic exploitation of the greater inter-allied victory in Macedonia," says Marzel Hutin, editor of the Echo de Paris, King Ferdinand, of Bulgaria, has asked Gen. Mackenzen, who is now in Bucharest, to take the command of his armies so as to block the advance of the allies in Old Serbia and preserve Bulgaria from invasion, according to information received here from Switzerland.
